INTRODUCTION

GET TO KNOW US

Study Medicine in China is the leader in medical student recruitment with offices in the UK and China. SMC is a grass roots company founded by students with first-hand experiences of living, studying and securing medical degrees in China. Our academic achievements have also paved the way in securing placements for future prospective students. Our international focus has enabled us to attract students from all over the world. We have been recognised as the top UK-China recruitment agency for providing the most student-friendly and affordable Medical Universities in China, making us the premier choice for you.

More specifically, we officially represent and are affiliated with a number of Chinese Medical Schools that offer English undergraduate programmes such as Zhejiang University. Additionally we are linked with 15 hospitals in Zhejiang province.

We are committed to providing a world-class service from your initial enquiry to the time you graduate.

We have representatives from several continents and thus are familiar with submitting various applications. The application process can be complex so we ensure your application meets the criteria and admissions documents stand-out.

Since our inception, we have focused on meeting each students needs and help advise them on their choices. We have a family culture and believe that “one candle can light many other candles” we welcome you to join us to spark your medical journey to life.

Team 

INTRODUCTION

GET TO KNOW US

“ We review each student as a separate, unique individual, with his or her own needs and desires, with an emphasis on interpersonal contact, rapport and reciprocity. ”

“ Since our inception, we have offered our premium services to all our applicants. We strive to ensure that all our students are successful throughout their careers. ”

“ We provide a simple, comprehensive and efficient service. ”

“ Our team consists of students, doctors and professionals within the medical system. Professional and reliable always. ”

● WHY CHOOSE SMC

SINCE OUR INCEPTION, WE HAVE FOCUSED ON MEETING EACH STUDENTS NEEDS AND HELP ADVISE THEM ON THEIR CHOICES. WE HAVE A FAMILY CULTURE AND BELIEVE THAT "ONE CANDLE CAN LIGHT MANY OTHER CANDLES" WE WELCOME YOU TO JOIN US TO SPARK YOUR MEDICAL JOURNEY TO LIFE.

10 REASONS WHY YOU SHOULD CHOOSE SMC

1 NO 1 UK STUDENT CONSULTANCY IN CHINA

SMC is the leader in medical student recruitment with offices in the UK and China. We are working exclusively with WHO accredited universities and English taught MBBS programmes. We also provide training programmes to over 15 hospitals in Zhejiang province.

2 APPLY WITH CONFIDENCE

Our experts will connect you with our partners to ensure that you have the highest chance of being accepted. Our multinational team will help you find the right place according to your qualifications, budget and needs.

3 CLARITY AND TRANSPARENCY

We will provide you with up-date information based on government policy to ensure you are well informed from the moment of your application until the end of your studies

4 SUPERIOR RESOURCES

We have compiled a decade of best student practices from universities across China to ensure you have best student resources available.

5 PROFESSIONAL ORIENTEERING

From the moment of your admission we will assist with your visa, arrange a special driver, book you into your accommodation, help purchase daily utilities and ensure you meet all of the legal obligations of studying in the PRC. Additionally we will give a presentation on do's and don't of living in China.

10 REASONS WHY YOU SHOULD CHOOSE SMC

6

MENTORSHIP HOTLINE

To ensure that our students remain accountable and on track we have created a mentorship hotline to assist our students during the duration of study in China to ensure that parents are kept well informed and students remain motivated and accountable.

7

EMERGENCY MEDICAL GUIDANCE

Our partner hospitals will ensure that you are connected to English speaking doctors and are well informed about your healthcare during your stay in China.

8

USMLE AND UKMLA TRAINING

We prepare our students to prepare for the above tests from the first day to ensure that they are academically prepared to work anywhere in the world.

9

BECOME AN SMC ALUMNI

You will become a member of our global network of doctors and hospitals. Joining our network will help broaden your options and make informed choices.

10

OUR PROMISE

To be fairly priced, transparent and provide superior student support throughout your study experience.

● WHY CHOOSE CHINA

FIND OUT WHY YOU SHOULD CHOOSE TO PURSUE YOUR MEDICAL DEGREE IN CHINA. STRONG ECONOMY, LOW TUITION FEES AND LIVING COSTS ARE JUST A FEW OF THE REASONS ON WHY CHINA SHOULD BE YOUR FIRST CHOICE.

10 REASONS WHY YOU SHOULD CHOOSE CHINA

STRONG ECONOMY AND STABLE SOCIETY

China is an economic power house, its growth in the last two decades has been historic. The country is known for its safety amidst a world that is facing turbulent times.

LOTS OF CHOICE

China provides a larger variety of medical schools that includes some of the prominent medical schools in the world. Our choices of medical schools are registered in the International Medical Education Directory (IMED) and WHO.

LOWER LIVING COSTS AND TUITION FEES

Studying towards an MBBS in China is 70% cheaper than undertaking a similar program in the US or Europe.

FAST-TRACK QUALIFICATION

It lasts on average six years, which means you can become a certified physician way faster than those studying medicine in the US, Canada or Germany, where it takes seven to eight years to completely qualify.

COLOURFUL AND FULFILLING CAMPUS LIFE

International students can experience not only the cultural history of China as well as engaging in variety of campus activities.

10 REASONS WHY YOU SHOULD CHOOSE CHINA

LEARN THE WORLD'S MOST-SPOKEN LANGUAGE

Medical courses in our universities are taught in English, but it's also required to study the Chinese language as a separate subject. Chinese is spoken by over a billion people all over the world.

A HUGE COUNTRY TO EXPLORE

Geographically, China is immense. It is full of natural and artificial wonders, and if you study in China you will have the opportunity to explore some of these. China has 50 UNESCO world heritage sites; The Great Wall of China in Beijing is one of the Seven Wonders of the World.

RETURNING TO THE UK MADE EASIER

Once you graduate from our partner universities will receive a globally recognised medical degree that will make you eligible to attend national medical screening tests such as MCI, PMDC, USMLE, HPCSA, SCHS, UKMLA etc. The English copy of the degree will state MBBS (Bachelor of Medicine and Bachelor of Surgery).

PLENTY OF QUALITY HOSPITALS FOR INTERNSHIPS

The most underrated aspect of studying in China is your ability to secure internships in Grade A hospitals in China. This allows students practical, hands on experience in an incredibly busy hospital environment. Equally accessible are research opportunities that can enable students to receive acknowledgements in publications.

ONGOING SUPPORT

We will make the whole process simple and transparent, you don't need to look any further you simply need to make the choice and decide to start your career in medicine. We are with you the whole way!

The Huazhong University of Science and Technology (HUST) is a national key university directly under the administration of the Ministry of Education of P. R. China, and is among the first Universities joining the national "211 Project" and "985 Project". It was founded in 2000 as a result of the merger of the former Huazhong University of Science and Technology, Tongji Medical University and Wuhan Urban Construction Institute.

At present, the University has eleven disciplines: engineering, medicine, management, science, philosophy, economics, law, education, literature, history and agriculture, offering a variety of degree programs, including 86 undergraduate programs, 256 graduate programs, 181 PhD programs. There are 31 post-doctoral research centers, 7 national key disciplines, 15 national key subdisciplines.

Now the University has over 1,000 professors and 1,300 associate professors, including 24 academicians, 65 professors receiving funds from the Cheung Kong Scholars program, 36 winners of National Science Fund for Distinguished Young Scholars, 36 listed in the "National Talents Project" and 135 young scholars listed in "New Century Outstanding Talents Project" of the Ministry of Education. In recent years, with the implementation of "New Century Education Reform Project", HUST has built up a course system based on such major disciplines as information, mechanics, civil engineering and environmental studies, electrical engineering, medicine, management, humanities, etc. It has greatly promoted the reform of credit system and English learning program for non-English majors, strengthened its education base and practical education reform, and built 13 student innovation bases.

Nanjing Medical University (NMU), founded in 1934, is one of the top institutions of higher learning in China. As the name suggests, NMU is located in Nanjing, one of the four ancient Chinese capitals, a city which was a cultural, political and economical center in southern China and is currently the capital of Jiangsu province and an economical center in the Yangtze River Delta.

NMU has a strong faculty team of 1470 registered faculty members, including 117 full professors, 175 associate professors, 185 supervisors of doctoral programs and 812 supervisors of master's programs. NMU has 1 key laboratory at ministry level, 2 key laboratories co-established by the ministry and provincial government, 7 provincial key laboratories and research centers.

In recent years, NMU has launched an extensive exchange and cooperation with national and international higher institutions. The university has established bilateral and academic relationship with medical schools and scientific research institutions in USA, Canada, Britain, Germany, Japan, France and Australia. Some prestigious experts and scholars are conferred Nanjing Medical University honorary or guest professorship. Meanwhile, it has regularly sent teachers abroad for long-term study or short-term visits. Since 2002, the university has resumed enrollment of international students and students from Hong Kong, Macao and Taiwan. At present, the total number of international is over 500.

Tongji University is one of the leading universities directly under the authority of Ministry of Education in China. As a state key university, it has been included in the State-founded Project 211 and the 21st Century Education Rejuvenation Action Plan of China.

After the establishment of the People's Republic of China in 1949, Tongji University became an engineering university following a nationwide restructuring of institutions of higher learning in 1952. It was the largest university of civil engineering and offered the most specialized engineering programs in China. The university has developed rapidly into a multidisciplinary university featuring sciences, engineering, economics, management, liberal arts and law, with the initiation of the open up policy under the authorization of the central government in 1978.

The university has more than 50,000 students, around 4,200 teaching and research staff, amongst which 718 are full professors or researchers, 1499 are associate professors or associate researchers. Among the staff there are 5 academicians from the Chinese Academy of Sciences and 7 academicians from the Chinese Academy of Engineering. As one of the state key research centers, the university has 14 state key laboratories and engineering research centers either at the state level or ministerial and provincial level. There are 6 hospitals and 3 middle schools affiliated with the university.

Wenzhou Medical University (WMU) is a higher institution under the administration of Zhejiang Provincial Government. It can trace its origin back to the former Zhejiang Specialized Medical School established in 1912. In August 1958, a group of faculty was sent from Zhejiang Medical College in Hangzhou to help establish the Second Zhejiang Medical College in Wenzhou, whose name was changed to Wenzhou Medical College in accordance with its location.

In 2013 Wenzhou Medical College was officially renamed Wenzhou Medical University. In 2015, it was shortlisted as one of the co-development universities by the Ministry of Education, National Health Commission and Zhejiang Provincial Government. In 2017, it became a Priority Development University in Zhejiang Province.

Wenzhou Medical College is composed of three campuses, located respectively at Chashan, Xueyuan Road and Xiushan, covering an area of about 800,000 square meters (1,290 mu) with a floor space of 500,000 square meters. The college library has a collection of about 1280,000 books. It now has over 11900 full-time students and more than 8000 professional staff committed to strengthening discipline construction and research work. It also has 17 affiliated hospitals with around 12000 beds.

Wuhan University has been perennially ranked among the top-tier universities in China. Nationally, it was ranked fourth in 2016 and third in 2017 due to its academic excellence. The university has many well-known research fields such as social and human science, remote sensing, surveying engineering, and hydraulic engineering which have been in the leading positions for decades. It is administered by the Ministry of Education of China and was selected by both Project 985 and Project 211 as a major receiver of state funding. So far, it is the only university in China to have been reported by the journal SCIENCE due to its 125 years of academic excellence (1893–2018).

The history of Wuhan University can be traced back to Ziqiang Institute, which was founded in 1893 by Zhang Zhidong, the then governor of Hubei Province and Hunan Province in the late Qing Dynasty. In 2000, an amalgamation of the former Wuhan University, Wuhan University of Hydraulic and Electric Engineering, Wuhan Technical University of Surveying and Mapping, and Hubei Medical University was announced, which ushered in a new era in its 100 years of development.
